- GitHub/Gitlab
- GitHub Actions
- Testflight

Methods:

- Agile Scrum
- Retrospective facilitation
- Project management
- Code Review

Transmission:

- Training/course
- Technical Jury

🇫🇷 **French** : Native Speaker

🇬🇧 **English** : C1 – Fluent

🇪🇸 **Spanish** : A2 – Intermediate Level

🇰🇷 **Korean** : A2 – Intermediate Level

🇭🇺 **Hungarian** : A1 – Beginner Level

WORK EXPERIENCES

FREELANCE / LILLE - FRANCE & REMOTE / SINCE APRIL 2026

Mutuelle des Motards x Vipali — React Native/Go

Health prevention app for members

- Development of the mobile application in collaboration with Vipali, a Lille startup specializing in health prevention aimed at 260,000 members

Other missions :

- Defense jury at Epitech

FRONT DEV – SWIFT / REACT NATIVE / REACT / NEXT.JS

LA MOBILERY / WASQUEHAL - FRANCE / NOV 2021 - DEC 2025

Auchan • Swift / SwiftUI

Mobile application for the general public (drive, catalogue, loyalty)

- Development of new features on the general public app in Swift, used by millions of customers
- Gradual migration of UIKit components to SwiftUI, improving code maintainability
- Active participation in Agile rituals and reinforcement of the Product Owner on the division of features

Vivelys • React Native

Wine tank sensor monitoring

- Development of a mobile app for recovering and synchronizing sensor data in offline-first mode
- Implementation of data feedback visualization graphs allowing users to detect anomalies in real time. This increased vigilance allows us to react immediately and guarantee the optimal quality of the wines.

Atelier des Lumières • React Native/React

Complete redesign of the application mobile & web

- Technical lead and project manager for the application redesign
- Updating and enhancing the React-based web back-office
- Facilitating co-design workshops with the designer to define user journeys
- Coordinating a multidisciplinary team of three (development and design)

CLAIRE MERLIN

DEVELOPER • WEB & MOBILE
FREELANCE

WORK EXPERIENCES

Iparcus • React

Security perimeter management and visualization

- Participation in co-design workshops with the design team to define user journeys
- Design and development of the web interface from scratch in React/TypeScript
- Creating complex data tables and graphic visualizations from Figma mockups
- Accelerated development using AI assistance (Cursor, Claude)

White label web application • React

Auto insurance management

- Development of a web application for managing automobile insurance contracts

Le Bon Home • React/React Native

Management tool for housing landlords

- Mainly web development in React (rental management interface)
- Reinforcement and support of a junior mobile team on React Native

Saint-Maclou • Next.js

Progressive web application for in-store professionals

- Development of a responsive PWA in Next.js with Back For Front (BFF) architecture
- Integration of backend APIs and performance optimization for in-store field use
- Deployment in 140 stores across France

CurryCulum • Replit / IA / React

Internal automatic CV formatting tool

- Design and development from scratch of a CV generation and formatting tool
- Integration of AI to automate content formatting and structuring
- Deployed internally and used by the team on a daily basis
- Developed quickly with Replit and AI assistance, from idea to production

Angelo • Replit / IA / React

Internal HR management tool for attendance management, timesheets and management support

- Design and development from scratch of a complete HR tool used by the entire team
- Features: attendance tracking, timesheet management, management dashboards
- Developed quickly with Replit and AI assistance, from idea to production

Other Projects:

- Mobile development course (React Native) at ECV and ForEachAcademy
- Thesis defense jury member at Epitech

CLAIRE MERLIN

DEVELOPER • WEB & MOBILE
FREELANCE

WORK EXPERIENCES

MOBILE & WEB DEVELOPER – SWIFT / VUE.JS

PREMEDIT / LOOS - FRANCE / SEPT 2019 - OCT 2021

- Development of a Swift mobile app helping injured runners recover through medically designed rehab programs.
- Actively participated in design workshops and worked within a Scrum framework, including facilitating retrospectives.
- Developed a Vue.js web application to manage subscriptions and promo codes, enabling seamless administration of users and commercial offers.

INTERSHIP • MOBILE DEVELOPER – REACT NATIVE

7DIGITAL / LA MADELEINE - FRANCE / APR 2018 - AUG 2018

Development of various mobile music streaming applications.

WEB TRAINER – HTML / CSS / JS

EPITECH / LILLE - FRANCE / JULY 2017

One-month training course for business and communication school students to teach them the basics of web development.

INTERSHIP • SOFTWARE DEVELOPER – C++

INNOVNET / ANZIN-ST-AUBIN - FRANCE / SEPT 2016 - DEC 2016

Improvement of mapping software for a consulting firm specializing in environmental diagnostics, agriculture, agronomy and soil studies.

CERTIFICATIONS

WEB ACCESSIBILITY & RGAA / WCAG COMPLIANCE

ACCESS42 / AWARDED IN JUNE 2026

Training and certification on digital accessibility.

Allows you to master RGAA 4.1 and WCAG 2.1 to design and audit web interfaces accessible to all audiences, including people with disabilities (visual, motor, cognitive, hearing).

Covers the use of assistive technologies (screen readers, keyboard navigation, voice commands) and applicable legal obligations.
